New Columbia Records for Kindergarten and Primary Grades

Every teacher appreciates the value of phonograph records that have been made specially for children in Kindergarten and Lower Grades. These eight double-disc records, thirty-two selections, were recorded under the direct supervision of the teachers in Kindergarten, Horace Mann School, Teachers College, Columbia University, New York City. The selections have been used many times with groups of children, and care has been taken to have the tempo of the recordings the same as the tempo used with the children in their daily work. The music for Appreciation, Interpretation, Marching, Band, Skipping, and Lullabies is justified by the standard of quality, as well as by the appeal to the children in their present experiences. The selections are short because a child's interest is not held for a long period. The few instruments used in the recordings give a volume of tone loud enough for the ordinary class-room, but at no time is the music exciting or confusing.

The Power of YOUR Personality

Why Forfeit It by Using a Large, Bulky Piano?

After all, it's **personality**—your power to create interest and stimulate enthusiasm—which inspires children to learn and compels them to remember. Eliminate this factor and the very purpose of the teacher is defeated—that close, intimate contact, so necessary to progress, can never be secured.

Are you one of those teachers whose personality is being forfeited by the use of an ordinary upright? Are you striving for the impossible—efficiency in music instruction with an instrument which permits you to see only part of the class during the lesson?

Then think of the greater possibilities you would have with a small piano in your schoolroom.

The MIESSNER Piano

"The Little Piano with the Big Tone"

Here is just the instrument you need. Standing only 3 feet, 7 inches high, the MIESSNER enables you to look over the top and see every pupil in the room while you play. The children watch your every expression—follow your lead as never before. Their nature responds—a love for good music is developed which heretofore could not be secured with the use of large pianos. That is why thousands of Miessner Pianos are now in use in America's schools.

No child need be denied the benefits of piano accompaniment when the MIESSNER is used. Two boys can easily move it from room to room; two men can carry it from floor to floor.

Remember, the Miessner is a finely finished, well constructed, full toned instrument—so high in quality that it compares with even the best known small grand pianos on the market. There are 3 strings for each treble note. Bass strings are copper wound. Keyboard is full seven octaves; keys full size.

Yet, with all its exclusive constructional features and advantages, this marvelous piano costs **even less than the ordinary upright.**

You may order a Miessner Piano and put it to the test in your own school-room—for 10 days. If you are not more than satisfied, return it at our expense. Any freight charges you have paid will be promptly refunded.

TIMELY SUGGESTIONS FOR CHRISTMAS PROGRAMS

The First Christmas

The Day of the Holy Child, as Seen by the Eyes of a Child

A Cantata for Soprano and Contralto Solo

Three Part Women's Voices

Text by Cordelia Brooks Fenno

Music by Louis Adolphe Coerne

\$.75 List

Time of performance, Twenty Minutes

A novel presentation of the great Christmas story unlike any other in idyllic and imaginative charm.

"The First Christmas cannot help but stand out among the cantatas motived by the season. It presents, to quote from the sub-title, 'The Day of the Holy Child, as seen by the eyes of a child.' The text develops throughout this unique and charming idea, one whose appeal cannot well be gainsaid; and Mr. Coerne has given the author's lines the colorful pulse and movement of music that is melodious, spirited and devotional.

The solos are well introduced and very singable, and a richly wrought accompaniment supplies a background against which the voices stand forth with sonorous emphasis. The First Christmas deserves praise as a singularly unified work, one in which a novel and appealing thought has been carried out in text and music with spontaneity, practicability and real distinction."
